Let's play : MX Player : Pre-Broadcast Questions - Q: How does a television network decide to air a show? A: A network may pre-buy a show and cast it as a first run if it believes they can get a good deal for it, and if there isn't already another network airing a show in that time slot. A network may have two or more shows to air at the same time on a channel. If a station wants to air a show that is already on the air at another network, they would need to sign a new deal with that network to air the show. : Pre-Broadcast Questions - Q: How does a television network decide to air a show?
